LT-2008
Digital Pager
(blink, vibro
and/or sound alert)

Modern compact design

LTK 2003 MC

Transmitter, charger, keypad and
programmer in one housing

Guest paging system for restaurant business

Description:

Compact guest calling system (transmitter, charger, keypad and display in one housing).

If the guest can not get his order immediately, he gets a pager. Then he can wait until the meal is prepared. Once the pager alerts him, he can return to the counter.

Up to 30 coaster pagers in one system.

Range: up to 2 km (UKW-Band)

Dimensions: 25 x 18 x 7 cm

Power supply: 220V

Numerous advantages:

- Increased customer's satisfaction
- Free frequencies in EU - but individual ID base for different bases on the same frequency possible
- Range Test and anti theft function
- Renumbering function - no extra cost for programming of additional pagers.
- System is delivered 'Plug & Play' ready to use and requires no extra maintenance.
